Take A Look

Ventless System Technology Allows American Hood To Offer Alternative Solutions To Our Customers In Solving Their Air Cleaning Needs. The Technology, Offers Benefits And Flexibility Not Provided By Traditional Venting Hood Systems.

Ventless Technology Is Used With Only Electric Appliances. The Technology Can Be Used With Both Open Fryers And Pressure Fryers.

Advantages Of Ventless

- Cost and Ease of Installation
- Portability
- Solution solver for niche applications

Feeling Chilly?

If Cold Weather Is Giving Your Store Owners The Chills, Take a look at Mars Air Doors!

The Mars Air Curtains Conserve Energy And Improve Comfort By Limiting The Escape Of Internal Heat. This Reduces Cold Drafts And Offers A Welcoming Down Flow Curtain Of Warm Air At Entrance Ways In Industrial Buildings and Store Buildings.

The Resulting Mixture Of Warmed Air Disperses Gently In All Directions At Floor Level To Give Uniform Temperature Over A Wide Area From Floor To Ceiling.

Ask Your Rep Today About Mars Air Curtains!

Special Note

Thank You To Everyone Who Returned The Database Update Information Form. It Has Been Very Helpful. If You Haven't Received The Form, Or If You Need A New Form, Please E-mail Phyllis at: pwhite@bachovinhealygroup.com
